VENDOR SERVICE INFORMATION LETTER

LANDING GEAR CONTROL AND INTERFACE UNIT PART NUMBERS:

664700500A4A, B, C or D

SUBJECT: ULTRA ELECTRONICS CONTROLS – NEW TESTING REQUIREMENTS

ATA CHAPTER: 32-31

AIRCRAFT TYPE: A318, A319, A320 & A321 Aircraft

APPLICABILITY: Landing Gear Control Interface Unit (LGCIU) PNR: 664700500A4A, B, C or D

REFERENCES: A. CMM 32-31-39.

1. DESCRIPTION – VSIL K8081-32-002 CANCELLED

At the next revision of Reference A, we were intending to introduce an Environmental Stress Screening (ESS) for the return to service test that follows repairs performed upon the LGCIU. The next revision will now not contain an EES process.

Therefore the information contained in the initial VSIL K8081-32-002 is no longer valid and VSIL is cancelled.

VSIL NUMBER: K8081-32-002
