SERVICE INFORMATION LETTER

SERVICE INFORMATION LETTER LG 6/98

(Issue 1, June '98)

LANDING GEAR CONTROL AND INTERFACE UNIT PART No. 005LG005B

(Used on A330 and A340 Aircraft)

PROXIMITY INTERFACE PCB REPLACEMENT

1. Description

This Service Information Letter is applicable to all LGCIU **Pt. No. 005LG005B** that require a new Proximity Interface PCB with serial numbers 1148 and above.

Due to changes in electrical loading characteristics of components within the LGCIU, Proximity Interface PCB's with serial numbers 1148 and above can only be fitted to units identified by **AMENDT 1** on the front panel identification plate. LGCIU failures may occur if PCB's with serial numbers 1148 and above are fitted to non-AMENDT 1 units.

2. Implementation

When replacing the Proximity Interface PCB's, Pt. No. 869402, inspect serial number. If serial number is 1148 or above ensure LGCIU has AMENDT 1 marked out. If not, perform Equipment Amendment No. 1 in accordance with Service Bulletin 005LG-32-1

All queries relating to the information contained in this Service Information Letter should be addressed to: -
