

Manually operated, quick disconnect charge valves

Features

- Nominal working pressure 330 bar
- Operating temperature of -32°C to +70°C
- Life of 5 years with overhaul
- Mass of 225 grams
- Part No. 1942-4001

Ultra offers a manually operated quick disconnect valve to facilitate safe charging and use of high pressure gas vessels.

Each valve safely vents the gas contained within the interspace between the bottle and valve prior to bottle release.

The valves can be supplied with optional pressure gauges, tactile pressure indicator or guard filters.

Benefits

- Compact, light weight design
- Snap or screw connection versions available
- Compatible with vessel charge valve to DEF-STAN 81-91
- Available pure air cleaned and compatibility tested to DEF-STAN 58-96
