

Toggle Switch

6558 Series

The 6558 series of Toggle Switch is a two or three position on off on switch. It is double throw with 8 poles.

The switch has been designed to give good tactile feedback and have self-wiping contacts in all positions. The switches can have their contacts joined in a multitude of ways to provide different configurations.

The Toggle switch benefits from:

- A variety of contact arrangements
- Various knob styles and locking mechanisms
- Two or three position switch
- 1, 2 or 4-Pole versions available
- A variety of guards are available
